

NORTH SYDNEY COUNCIL

Sustainable Living Workshops

Worm Farming

Sat 7 March, 11am-1pm, Ros Crichton Bldg, North Sydney Council

Learn how to build a worm farm from scratch and utilize your organic waste around the home. This workshop covers all aspects of worm farming including materials and techniques.

Espaliering Made Easy

Sat 21 March, 9am-11am, Coal Loader Sustainability Centre, Waverton

Learn about this fabulous technique that allows you to grow fruit and ornamental trees in confined spaces to create a wonderful pattern. Practice on trees at the site or bring your own to take home with you.

Solar Power

Wed 1 April, 7pm-8.30pm, Hutley Hall, North Sydney Council

Learn how to power your home from the sun. This workshop will answer all the questions you have about solar power including panels, design and installation, size of systems and government rebates.

Permaculture gardening in small spaces

Sat 18 April, 11am-1pm, Hutley Hall, North Sydney Council

Have you always wanted to grow herbs and veggies but only have a small but sunny confined space? Come along to this free workshop designed for a balcony, patio or decking and learn about the basics of permaculture and how to create a mini-food container garden that is applicable for very small areas.

Composting & Worm Farming

Sat 30 May, 11am-1pm, Hutley Hall, North Sydney Council

Learn how to utilize your organic waste around the home with an introduction to composting and worm farming. The workshop will cover all aspects of both techniques including materials and set up.

Natural Cleaning

Sat 13 June, 11am-1pm, Hutley Hall, North Sydney Council

Natural cleaning or green cleaning is the natural alternative to using products containing chemicals that can harm health and the environment. Learn about safe and effective ways to clean with natural products.

Workshops are FREE & bookings are essential 9936 8100
