

## WEED CONTROL CLASS 4 MANAGEMENT PLAN

The control objective for weed control class 4 is to minimise the negative impact of those plants on the economy, community or environment of NSW.

### NAME OF WEED: Rhizomatous Bamboo

**Common name:** Rhizomatous bamboo

**Scientific name:** *Phyllostachys species*

The above mentioned weed is a noxious weed declared under section 7 of the Noxious Weeds Act 1993.

### AREA OF OPERATION & PHONE NUMBERS FOR LOCAL CONTROL AUTHORITIES:

North Sydney Council

Phone number: 9936 8100

### PLAN PERIOD

**Starting date:** 1st March 2006

**Completion date:** 28<sup>th</sup> February 2011  
(Unless otherwise revoked)

### CONTROL MEASURES FOR THE WEED AS PER ORDER 19

Class 4: "The growth and spread of the plant must be controlled according to the measures specified in a management plan published by the local control authority and the plant may not be sold, propagated or knowingly distributed".

The above local control authority specifies the following measures to control this weed:

Individual specimens and small infestations must be completely removed.

Large infestations (i.e. greater than 75% of any property area larger than 500m<sup>2</sup>) must be reduced by 50% annually.

On publicly owned or managed land, the weed will be strategically controlled and reduced according to available resources.

Areas previously treated must not be allowed to regrow.

### CONTROL REQUIREMENTS FOR THIS WEED IN THE AREA OF OPERATION

**Note:** The above control requirements will normally be met through applying the following control measures.

#### Manual control.

Physically remove by hand or machine. Make sure every part of the rhizome (underground stem) system is removed (including any fragments) to the depth required. Rhizomes generally grow quite shallow, so this will usually be within the top 30cm of soil. Dispose of all rhizomes in bags to avoid further spread. Watering the area deeply a few days before digging can make physical removal easier. Monitor the site over the next few seasons for the occasional shoot where root fragments may have been missed.

**Herbicide control.**

Cut each stem with loppers within 150 mm from the ground. Within 15 seconds, paint the cut stem with a registered herbicide. Apply herbicide immediately so that the herbicide is drawn down into the rhizome. Cut stems should be mulched after the stems have fully dried out and turned brittle, or placed in green waste for recycling. Monitor the site as repeated chemical treatments may be required.

General information on control methods for this weed can be found in the most recent edition of the annual *Noxious and Environmental Weed Control Handbook* [www.dpi.nsw.gov.au](http://www.dpi.nsw.gov.au) or at [www.sydneyweeds.org.au](http://www.sydneyweeds.org.au)

**Before commencing any chemical control program contact your local council's weeds officer for advice tailored to your situation. All herbicide use should be undertaken with a registered herbicide as specified on the herbicide product label or relevant off-label permit published by the Australian Pesticides & Veterinary Medicines Authority.**

**LINKAGES TO OTHER PLANS, STRATEGIES (Local, Regional, State and National):**

Sydney North Regional Weeds Strategy (Sydney North committee only)  
Sydney Metropolitan Weeds Strategy (currently being developed)  
Hawkesbury Nepean Catchment Weeds Strategy (currently being developed)

**SECTION 12 OBLIGATIONS (from the Noxious Weeds Act 1993)****Private occupiers of land must control noxious weeds on land.**

An occupier (other than a public authority or a local control authority) of land to which a weed control order applies must control noxious weeds on the land as required under the order.

Maximum penalty: 40 penalty units.

Note: If an occupier fails to comply with obligations under a weed control order, those obligations may be enforced against the owner of the land as well as the occupier by a weed control notice issued under section 18.

**PLAN ENDORSEMENT**

**This plan is endorsed by each Local Control Authority in the area of operation.**

**Adopted at the meeting of North Sydney Council, dated 26 November 2007.**

**Please note: this document is only binding when reproduced in entirety.**

**June 2007**
