

Summary of Actions Arising (SOA) Brightmore Precinct 2023

This document is North Sydney Council's response to actions arising from Precinct Committee Minutes. On receipt of the minutes, actions are numbered and allocated to relevant Council Officers for response.

To effectively manage and provide clarity, all actions are allocated a status when reporting to Precinct Committees in response to their minutes. There are three categories:

- **Awaiting Response** - action allotted to Council Officer - response awaited.
- **Open/Ongoing** - action allocated to Council Officer, initial response provided. Matter is ongoing and further response/update is to be provided at a later date.
- **Closed for Council** - Council either completed related works/tasks or has taken all reasonable steps within its power to resolve issue (for example when matter is beyond its jurisdiction). If the Precinct Committee feels Council can take further steps, they can request Council reopen action.

Questions or concerns re content of this document should be directed to precincts@northsydney.nsw.gov.au

July	7i	<p>Young Street and Grosvenor Street Intersection: Cycling and Walking Upgrades - Council is consulting on the final concept design for Young Street and Grosvenor Street Cycling & Walking Upgrades and seeking feedback from the community which will inform the final concept design. LS & MTJ attended the on-site walkthrough with Council staff on 12 July. The designs include:</p> <ul style="list-style-type: none"> • cycleway extension along Young Street connecting to the Neutral Bay town centre and bicycle crossing at Grosvenor Street; • replacement of the existing roundabout at Young Street and Grosvenor Street with a four-way intersection; • improved pedestrian amenity with new pedestrian crossing, kerb extensions and pram ramps; • enhancement of existing verges and streetscape with new garden beds. 	<p>Council's Sustainable Transport Project Coordinator notes the Precinct Committee's comments regarding the Walking and Cycling Upgrades and will consider it as a submission.</p> <p>The actions/question regarding the roundabout have been allocated to Council's Manager Traffic & Transport Operations for response.</p>	Open/Ongoing

How can this be resolved? • Has the swept-path analysis shown that large 17-metre semi-trailers are able to turn from Young Street into Grosvenor Street, given that all roads at the intersection have been narrowed by kerb-buildouts? Especially with the vehicles stopped at the <i>Stop/Give Way/Yield</i> line west-bound from Grosvenor at Young? • Are the sight lines adequate for east-bound vehicles from Grosvenor at Young Street?

May	4(v)	<p>DA for Advertising Panels: DA 102/23, 306 Military Road, Cremorne - CP015: Installation and operation of a freestanding advertisement structure for the purposes of Council communication and third-party advertising. Council is proposing to install communication panels across the LGA at 13 sites, one of which is at 306 Military Rd, Cremorne, north of McDonalds' exit near Sushi Train. The front of the structure will have 3rd Party Advertising Content, an active display area 1.53 m², and is 930mm wide & 1650 mm high. The rear of the structure will have Wayfinding/Community Content, an active display area 0.27 m², and is 390 mm wide & 690 mm high.</p> <p>Comments: There was a mixed response from attendees, some opposing it due to visual pollution and narrowing of pedestrian access. Attendees were urged to lodge personal submissions by the closing date of 19 May.</p>	<p>Council's Executive Assessment Planner notes the Precinct Committee's comments regarding DA 102/23 and will treat it as a submission.</p> <p>Council has engaged external independent planning consultants to undertake an assessment of the proposed advertising panel in accordance with State Environmental Planning Policies. The signage proposals have been prepared following a Council tender process for Advertising on Selected Council Infrastructure which concluded in February 2022. The assessment of advertising structures against planning controls, including consideration of submissions, will be addressed at a later date by the North Sydney Local Planning Panel, who operates independent of North Sydney Council. April	1	124 Benelong Rd, Cremorne: Land and Environment Court Appeal AP 323/21 - construction of 20 room boarding house Appeals - Demolition of dwelling house and construction of twenty (20) room boarding house including manager's residence and associated works. Lodged: 08/03/2023 Listed for a conciliation conference under section 34 of the Land and Environment Court Act on 11 August 2023. The conciliation conference will commence at 9.30am at 124 Benelong Road, Cremorne, at which time up to 6 objectors will be permitted to give oral evidence about the substance of their objections. Anyone who lodged a submission with Council should have been notified by the lawyers acting for Council, Sparke Helmore Lawyers, and if they would like to give oral evidence about the substance of their objections at the hearing on 11 August 2023, they should contact Mia Stamenkovski at Sparke Helmore Lawyers (Mia.Stamenkovski@sparke.com.au) by no later than 1 July. Comments from Attendees:	Council's Manager Development Services has advised that the issue of the direction of planning appeals is somewhat vexed as the elected Council has little direct control over the DA process and subsequent appeals lodged. The actual process of appeals is in-accordance with rules and practice directions of the Land and Environment Court of NSW. These issues have been covered factually in the report of the Council Solicitor that was on Council's agenda of 28 November 2022; https://www.northsydney.nsw.gov.au/ecm/download/document-10173139 Historically the Court has always expected that matters be settled by mediation and not proceed to hearing unless there were unresolved determinative issues. In some cases, interested parties can seek to join the proceedings but there is limited opportunity in the local development appeal matters that the Council is normally involved in. Information regarding the Court's procedures etc can be	Closed for Council

Wherever possible we advertise amended plans submitted through the conciliation process and take additional submissions on board as we move forward. It is not the intent of Council to lock submitters out of conciliation, but it tends to be an outcome of the court's process.</p> <p>This matter is again topical, with a further report to Council around the appeal process to be presented to Council shortly. What is required in my opinion is reform to the legislation and practice directions of the Court which dictate the management and direction of appeals so that greater regard is given to submitters and their concerns. From Council's point of view, active engagement of the community in such matters is consistent with the intent of its Engagement policies but made difficult when the process is run under the rules of others.</p> <p>Council's Manager Development Services is happy to attend a Precinct Meeting to address questions arising from the report of 28 November 2022 and any subsequent issues that arise.</p>

Cl 2.105 of the Codes SEPP permits real estate signage for the sale or lease of property; however, this is third-party advertising which is not permitted by the Codes SEPP. Also see Council's <i>Hoarding Construction Guidelines and Requirements</i> which does not permit advertising. Council, therefore, requested for the advertising signage to be removed.</p> <p>b) the building contractors have been advised of the approved construction hours. 		<p><i>Advertising on Selected Council Infrastructure</i> Council's A/Manager Engineering Infrastructure has advise that Council at its meeting on 28 March 2023 adopted to move forward with advertising on Selected Council Infrastructure - Part A: Small Format (bus shelters and comms panels). The contractor engaged for this project recently submitted development applications to install communication panels across the LGA at 13 sites. Two of the sites are on Military Road adjacent to properties 116 and 306. Comment from Attendee: The vehicles of JC Decaux, the company that maintains these freestanding advertisement structures, often service them during peak hour, blocking traffic (e.g. the bus stop on Strathallen Avenue at Northbridge). Action for Council: Could Council please ensure that any maintenance is not done during peak periods?</p>

Are the 3 or 4 large pillar-like structures on the eastern side of the plaza something to do with the underground carpark for 412 Military Rd? 	<p>Council's Team Leader Environmental Health has advised Council's Environmental Health Officer has been in touch with the residents/business owners and the initial feedback from one was that they weren't lodging a formal complaint re the subject noise.</p> <p>For a formal complaint to proceed, there needs to be an impacted resident or business. The noise criteria for residential receivers is that the noise from the plant room must not be more than 5 decibels more than the noise environment when the plant room is not in operation. This is generally measured at the boundary of the residential property. In the case of elevated apartments, noise readings can be taken from a window opening or balcony.</p> <p>For commercial receivers, under the EPA Noise Policy for Industry, noise from the plant room is permitted to be 65 decibels at the façade of other commercial premises.</p> <p>Council's Environmental Health Officer has been in contact with the nominated persons to ascertain their location in relation to the plant room, and to see if noise readings can be taken from their homes/businesses where they are impacted by the subject noise.</p>	Closed for Council
