**CHILD SAFETY POLICY**

Council is a designated Child Safe organisation and as part of this agreement the safety and wellbeing of children and young people needs to be considered. Attached are some key points for consideration:

**Permit for an Outdoor Dining or Goods Display Area in a Public Place**

- **Clear Walkways:**

Ensure that there are clear and unobstructed walkways for pedestrians, including children. Tables, chairs, and other furnishings should not impede the flow of foot traffic. This prevents accidents and allows for safe passage.

- **Secure Furniture:**

All tables and chairs should be securely anchored to prevent them from tipping over accidentally. This is particularly important in areas where children might be prone to climbing or playing near the furniture.

- **Child-Friendly Furniture Design:**

Choose furniture with rounded edges and no sharp protrusions to minimize the risk of injuries in case children accidentally bump into them.

- **Spacing and Layout:**

Plan the layout of tables and chairs to provide enough space between them. This prevents overcrowding and allows for easy movement of strollers, wheelchairs, and pedestrians, including families with children.

- **Proper Seating and Restraints:**

If high chairs or booster seats are provided for younger children, ensure that they are in good condition and have appropriate safety restraints to prevent falls.

- **Non-Slip Surfaces:**

Use non-slip materials for the flooring in the dining area to prevent slipping hazards, especially during wet or rainy conditions.

- **Child-Proofing:**

Implement child-proof measures where necessary, such as using tablecloths that are not easily pulled or tipped over by children. Also, avoid using small objects or decorations that could be choking hazards.

- **Accessibility:**

Design the outdoor dining area to be accessible to people with disabilities, including families with children who might be using strollers or mobility devices.

- **Visibility:**

Ensure that the layout of the outdoor dining area allows parents and caregivers to maintain clear lines of sight to their children while they enjoy their meals.

- **Emergency Procedures:**

Have clear emergency procedures in place in case of accidents or other emergencies involving children. This includes knowing the location of first aid supplies and how to respond to medical incidents.

**Permit for an Outdoor Dining or Goods Display Area in a Public Place**

- **Staff Training:**

If there are staff members managing the dining area, ensure they are trained in child safety protocols, including how to address safety concerns involving children.

- Outdoor dining is strictly No Smoking Zones.
- Age-Appropriate Menu and Utensils:

If the dining area serves children's meals, ensure that utensils and menu options are age-appropriate and safe for children to use.

- **Education and Awareness:**

Provide information to customers about the child-safe features of the outdoor dining area and encourage them to be mindful of the safety of children in the vicinity.

- **Regular Inspections and Maintenance:**

Conduct regular inspections of the outdoor dining area to identify and address any safety hazards promptly. This includes checking the stability of furniture, the condition of walkways, and the overall safety of the area.
