		<p>The Combined Precinct Committee (CPC) have significant concerns about North Sydney Council's Operating Plans including:</p> <ol style="list-style-type: none"> 1. Is prioritising visitation, and planning for +\$12mm loss an appropriate plan for this asset given the investment therein and the significant financial headwinds NSC is facing into? 2. Is it reasonable to plan for North Sydney rate payers to effectively fund construction and on-going losses for an asset that will be utilised by a Sydney-wide, and potentially international population? 3. Will North Sydney rate payers be 'recognised' in some manner in using the NSOP – given their public money has funded the redevelopment? 4. The NSOP facilities are diverse and complex – does NSC have the proven track record in operating such facilities? To use the Mayor's expression, does this sit within the 'bread & butter' of Council operations? 5. How will NSC ensure the right balance of skills be in place at an operational and oversight level once the NSOP is eventually operational? 6. What governance and reporting plans have been contemplated for NSOP? <ol style="list-style-type: none"> 1.1 CPC requests that a formal presentation from NSC relevant Executive(s) on the details of the NSOP Operating Plans – including details on NSOP Management Structures, reporting lines and processes and Governance oversight
