PURPOSE:

The purpose of this report is for Council to consider feedback from the consultation of a proposed social media policy, and to consider its adoption.

EXECUTIVE SUMMARY:

- Council does not currently have a social media policy applicable to staff and Councillors.
- Council is committed to engaging with the community on social media in a way that optimises engagement whilst managing risk.
- Council's proposed social media policy outlines the framework under which Council engages on social media and has been developed to address the challenges and risks associated with its use.
- The proposed policy is based upon the Model Social Media Policy from the Office of Local Government (OLG).
- The draft policy was placed on public exhibition from 25 July 2024 to 8 September 2024 and received 12 responses, which are outlined in this report.

RECOMMENDATION:

1. THAT Council note the results of the consultation and adopt the proposed *Social Media Policy*.

Background

Council uses social media to inform and engage with the community. We do not currently have a policy on the use of social media, applicable to staff and Councillors.

Council strives to communicate with the community in an open and accountable manner and recognises that social media plays an important role as a communication channel. Effective communication increases the community's understanding of Council's purpose and goals, improves transparency, and builds trust.

At its meeting of 22 July 2024, Council resolved:

- 1. THAT Council endorse the attached draft Social Media Policy for the purpose of public exhibition for a period of 45 days.*
- 2. THAT a further report be provided to Council following the conclusion of the public exhibition period, for the purpose of considering any submissions received and adopting a Social Media Policy.*

This report considers the submissions received through the exhibition period for the proposed policy and proposes an updated draft for adoption by Council.

Report

Social media is at the heart of modern communication. Since its inception, social media has rapidly grown in popularity and influence and is now fundamental to not just how people interact with one another, but also to how we work, play, and consume information and ideas.

Social media can be broadly defined as online platforms and applications (e.g., social networking sites, wikis, blogs, microblogs, video and audio-sharing sites, and message boards) that allow people to easily publish, share, and discuss content.

One of social media's key features is its unprecedented reach and accessibility, in that anyone with a computer or mobile device can use social media to generate content which has the potential to be viewed and shared by hundreds of millions of people worldwide.

Despite its benefits, social media also presents a variety challenges and risks. These include:

- the emergence of new, harmful forms of behaviour, such as cyber-bullying and trolling;
- maintaining the accuracy, reliability, and integrity of information disseminated from multiple sources;
- liability for content uploaded onto social media platforms, including defamation claims;
- reputational damage to colleagues and employers; and
- rapid innovation making it difficult to keep pace with emerging technologies and trends.

For Councils, social media has two primary functions:

- a) it is used by Councils to interact and share information with their communities in an accessible and often more informal format; and
- b) it enables Councillors to promote achievements and address their constituents directly about community issues and events in ways that either complement or bypass traditional news and print media.

Council also uses social media as the platform through which we webcast our meetings. Webcasts increase transparency by providing visibility of Council decision-making in real time.

To address the risks and challenges associated with the use of social media, it is important we have a comprehensive policy detailing its recommended use.

The Model Social Media Policy was developed by the Office of Local Government (OLG) in 2022. It sets out an exemplary approach by incorporating examples of best practice from the social media policies of a range of Councils, as well as from Commonwealth and State Government agencies.

The Model Social Media Policy provides Council with a robust framework for the administration and management of our social media platforms. It also sets standards of conduct for all Council officials who use social media in their official capacity. It has been developed to be fit-for-purpose in a digital age where innovation and emerging trends are the norm.

Consultation Summary

The public exhibition period ran 25 July to 8 September 2024, and received 12 responses.

The online feedback form, hosted on North Sydney Council's Your Say site, asked the community to submit their comments and suggestions on the draft policy, with any supporting documents that would support their submission. Analysis was conducted in-house.

10 out of 12 respondents (83.33%) supported the policy. Comments included:

- *I wholly approve of the draft document;*
- *I support this initiative;*
- *This is a sensible and reasonable proposal;* and
- *Supportive*

Several respondents noted the importance of transparency of staff and councillors disclosing that they are posting in an official capacity.

One respondent did not support the policy, noting:

- *I'm really struggling to why this entire thing is necessary.*

Internal consultation was also undertaken with staff operating social media.

Areas of concern

There were a few areas of concern raised including:

- how the policy would apply to private forums and Facebook groups, with a recommendation made to have a clearer definition of social media 'platforms', and to include groups, forums, and pages;
- how to enforce the policy if staff and Councillors are influencing commentary by proxy through friends or family members; and
- what the review process would be in the fast-changing area of social media.

Public submissions are listed in the Feedback Summary attachments, and the feedback has informed changes made to the previously proposed draft Policy.

The following clauses have been added to the previously presented draft in response to feedback:

4.5 Council officials engaging with, or moderating private forums, groups, or pages must adhere to Council's Social Media Policy. In the case of Council-related discussions, Council officials should ensure transparency, fairness, and compliance with the policy, including a clear disclosure of their official role when applicable. If a private forum is related to Council business but not moderated by Council, Council officials should avoid participating in discussions that violate this policy.

9.4 Council will ensure compliance with this policy through regular monitoring and training for all Council officials. Where breaches are identified, appropriate action will be taken in accordance with Council's policies and in particular the Code of Conduct Councillors and Staff Policy.

Consultation requirements

Community and internal engagement has occurred in accordance with Council's *Community Engagement Protocol*. The detail of this report provides the outcomes from the engagement for Council to consider prior to adoption.

1	I wholly approve of the draft document. I have already raised a complaint about the Facebook group https://www.facebook.com/groups/kirribilliconnections administered by [REDACTED] which contained posts by a [REDACTED] around mid-June of this year on the Harbour Bridge Cycle ramp. These violated at least sections 5.5 a, d and i of your policy. Copyright infringement was very blatant. Requests to [REDACTED] to remove them were ignored. With the adoption of this policy, these harmful and unmediated posts should be controlled and removed. I note other

	council have already adopted a social media policy, so certainly time to introduce it for North Sydney.
2	<p>Agree the Council should have this policy as certain councillors seem to be very disruptive.</p> <p>As a local ratepayer I am a bit sick of seeing Council news on the front page of the Sydney Morning Herald. The rebuild of the pool is a disaster.</p>
3	I support this initiative. If public officials or people looking to seek public office uses social media to further their views or causes, it should be made transparent. I suggest that it is extended to family members and “friends”.
4	Need to support Council in ensuring adhering to industry-best practice standards and ensuring social media engagement by Officers and Councillors encourages participation, is timely, accurate, inclusive, accessible, respectful, and transparent.
5	This is a sensible and reasonable proposal. Also fairly standard for organisations to adopt a social media policy to which its representatives and employees adhere to. It is a curious omission in 2024 that a local council and its elected officials do not have such guidelines. As a local resident I support the implementation of such a policy. I also note, with concern, the increasingly unhinged online behaviour of the former mayor in online community forums as evidence of why such a policy is urgently required.

8	Social Media is one of the quickest ways to get information to the community. It also needs to be in conjunction with emails and letters as not everyone has social media and emails, especially the elderly. Council should also use apps, like Snap Send Solve and they are quick and easy, you attach the exact locations with photos and description on what you are reporting. Snap Send Solve has advise they don't charge Council and the information is sent immediately on the spot of where the problem is.
9	As a social media professional, I'm really struggling to why this entire thing is necessary? It feels like a complete waste of tax payers money. It's completely out of touch and shows how backwards this current government is.
10	I wholeheartedly support this policy. It will help improve transparency and remove the bullying and censorship that we have seen from a handful of people for the last half a decade or so. The draft policy is a very good starting point of something that will need to be reviewed and updated regularly due to the rapidly changing technology space. The most public social media issues have been around administration of forums by sitting Councillors, but the same issues can easily happen on Councillor run pages too where blocking constituents prevents them from seeing what their Councillors are saying. The policy should be clear that it deals with both forums and Councillor pages. Consideration should also be given

	<p>to whether admins of groups are acting as a direct proxy for a Councillor in order to circumvent this new policy.</p> <p>I support the policy and recommend the following additions be considered:</p> <ol style="list-style-type: none"> 1. A regular review period of the policy to ensure that it is kept up to date. 2. Better clarity around Social Media ""Platforms"" and specifically including both ""groups/forums"" and ""pages"". 3. Inclusion of an additional rule that prohibits Councillors from controlling a forum or page via a proxy in order circumvent the aim of this policy.
11	<p>In principle the policy is good, but don't see how it's possible to practically enforce the policy when people can have proxies running community groups.</p> <p>But code of conduct definitely should be observed by people that represent Council.</p> <p>The banning of people from forums for having an opposing views is terrible. The only way i can see getting around this is for Council to moderate a group themselves, although that is obviously resource intensive.</p> <p>Councillors and staff acting in an official capacity should have some kind of indication of this in their display name.</p>
12	<p>Milson Precinct unanimously agrees to support the proposed social media policy as exhibited.</p>
