PURPOSE:

The purpose of this report is to provide details of the proposed fees and charges for the financial year commencing 1 July 2025, and to seek endorsement from Council for the Schedule to be placed on public exhibition prior to final adoption.

EXECUTIVE SUMMARY:

- In the 2023/2024 financial year, Fees and Charges comprised 21% of Council's total annual income.
- The Draft Fees and Charges Schedule 2025/26 have been developed in accordance with the principles contained within Councils revenue policies.
- 50 new fees and charges are proposed, and 112 existing fees and charges are proposed to be restructured into existing fees or discontinued. This is largely due to the streamlining of Compliance certificates.
- The proposed changes will not have a material impact on Council's financial position.

RECOMMENDATION:

- 1. THAT** the Draft Fees and Charges Schedule 2025/26 be endorsed and placed on public exhibition for 28 days.
- 2. THAT** a further report be prepared for Council's consideration at the submissions closing period to facilitate adoption of the Fees and Charges Schedule 2025/26 by 30 June 2025.

Background

The Schedule is a list of fees for all chargeable services, requests, applications, approvals, licences, hire bookings, and memberships. Fees and charges are determined by local councils each year. They contribute towards providing services and facilities.

Report

The Draft Fees and Charges Schedule 2025/26 was formulated around a general increase of 2.9% over the previous year's adopted schedule. This index is per the change in the All-Groups CPI Sydney index, from September 2023 to September 2024, and comparable market rates. The September CPI was the most recent available when the Fees process commenced.

All existing and proposed fees and charges have been assessed according to the nature of the services being provided. The following principles have been considered in the analysis of the proposed fees and charges:

1. Full cost recovery: the fee charged aims to recover all the direct and indirect costs associated with providing the service.
2. Partial cost recovery: the fee charged aims to only partially recover the full cost involved in providing a service. Situations where partial cost recovery may apply include:
 - a. where benefits from the provision of the service accrue to the community as a whole as well as individual users; and/or
 - b. a short-term approach to stimulate demand for a service where charging at full cost recovery may result in service evasion.
3. Market competitive: the fee charged is based on market competition. Comparatives are made with businesses offering the same or similar services.
4. Bonds and deposits: refundable payments that may be requested as a security for making good any damage caused to Council property and/or completing any works required in connection with an approval.
5. Regulated and prescribed: fees that are prescribed by State or Federal Government legislation. In the event of legislation introducing a new or amended statutory/regulatory fee subsequent to adoption or printing of this document, the Council may apply these new charges without further notice.
6. Conditions of grant funding: fees that are subject to eligible State and Federal grants whereby the Council is bound by their contractual terms and conditions, including applicable limits to chargeable fees.

These principles are included in Council's annual revenue policies.

Three Schedules are attached:

- a complete Draft Register;
- a register of only new fees; and
- a register of discontinued fees.

Fees set by statute, such as Schedule 4 of the Environmental Planning and Assessment Regulation, will be updated as they are published, and reported to Council when the final Schedule of Fees is submitted for adoption.

The on-street parking meter fees (page 31 and 32 of the draft Schedule) are pending consideration of the impact of removing the surcharges. For Financial Year 2025/26 no figures are provided for these items. These will be reported to Council separately and added to the Schedule once adopted by Council.

The draft Schedule does not include fees for North Sydney Olympic Pool (NSOP). These will be reported to Council separately and added to the Schedule once adopted by Council.

Parking station fees have generally not been indexed. Demand for parking (and consequently income) has fallen markedly since the opening of the Metro. A general increase in prices is therefore considered non-viable. In cases where demand remains strong, such as Ridge Street parking station, fees have been indexed. The 2024/25 December quarter review included a downward revision of the Parking Station fees budget of \$1,000,000.

New fees have been included for electric vehicle-charging infrastructure. The fees recover:

- the expense of installation and removal of meters,
- the administrative cost of processing applications to install meters, and
- annual access to Council's infrastructure.

It is estimated they will provide \$38,000 of income annually.

Council offers certification services in an open market with private certifiers. The existing structure contains approximately 75 different certification fees. It is proposed to streamline and simplify the fee structure. The proposed new fees contain a minimum and add to it a variable fee calculated on a percentage of the cost of works certified.

This streamlined approach is intended to make the fee structure clearer for customers, enhance transparency and recover the full cost of providing the service. While there have been extensive changes to these fees, the underlying service has not changed. It is not expected these changes will materially affect budgeted income.

Other new and discontinued fees are to minor items and are not expected to materially affect income.

Material Changes

Category	Fee or Charge	Page Reference	Summary of Change & Rationale
Parking Meters	Parking Meter Removal/Relocation Fee	32	Fee has been modified to reflect requirements when removing or relocating new on-street parking assets.
Parking Meters	Parking Meter Full Replacement	32	Fee has been modified to reflect requirements when removing or relocating new on-street parking assets.
Parking Meters	Parking Meter Configuration	33	Fee has been modified to reflect requirements when removing or relocating new on-street parking assets.
Multi-Purpose Poles	Install 5G Infrastructure on Multi-Purpose Pole	46	No installations have occurred. Changed quantitative fee to descriptive fee "Negotiated on a case-by-case basis".
North Sydney Oval Hirer Seniors	Daily Hire Fee – Turf Wicket	57	24% increase to recover additional costs of preparing wicket.
Waverton Coal Loader Events	Various Stall Hire Fees (3)	76	Increases ranging from 100% to 614%. To harmonise to other NSC event stall hire fees.
Waverton Coal Loader Platform	Garden Allotment Fee	76	60% increase. The former fee was noted at \$30per square metre. The proposed new fee is per garden bed allotment as a flat fee, to align with community demand and ease of allocation.

Consultation Requirements

Community engagement will be undertaken in accordance with the recommendation.

Financial/Resource Implications

User charges and fees are an important source of revenue for Council. In FY 2024 user fees were \$32.134 million, accounting for 21% of all revenue and 25% of own-source revenue.

The proposed changes outlined in this report and attachments will not result in a material change to Council's financial position.

Resource Implication Details

As per the *Revenue Policy*, the following principals are applied when formulating user fees:

- a) Council will endeavour to apply all revenue policies on an equitable basis,
- b) the "user pays" principle will, in general, be the basis for the full recovery of costs,
- c) fees and charges will take into account the movements in the Consumer Price Index (Sydney All Groups),
- d) income earned from Council's assets will be maximised, based on industry market rates,
- e) as a minimum, Council will seek to recover the administrative costs in performing its statutory duties, and
- f) consideration will be given to those groups and/or members of the community, who are disadvantaged and may not otherwise be able to access the service. Generally, this will be reflected by discounting the fee or charge.

The recovery of charges and fees under this approach are necessary to maintain current levels of services and assets. The proposed changes will not have a material impact on Council's financial position.

Legislation

In accordance with sections 405 and 608(1) of the Local Government Act 1993, a schedule of fees and charges must be prepared annually as a provision within Council's annual Statement of Revenue Policy.
