### PURPOSE:

The purpose of this report is to provide details of the proposed fees and charges for the financial year commencing 1 July 2026, and to seek endorsement from Council for the Draft Fees and Charges Schedule 2026–2027 to be placed on public exhibition prior to final adoption.

### EXECUTIVE SUMMARY:

- In the 2024-2025 financial year, Fees and Charges comprised 20% of Council’s total annual revenue and 26% of own-source revenue.
- The Draft Fees and Charges Schedule 2026–2027 (Attachment 3 to this report) has been developed with reference to comparable market rates and incorporates a general increase of 3.7% on the previous year’s adopted schedule.
- Several fees have been restructured or increased above CPI to address historical under-recovery, reflect market benchmarks, and better align charges with the actual cost and complexity of service delivery:
  - 54 new fees and charges are proposed.
  - 42 existing fees and charges are proposed to be discontinued, primarily to simplify fee structures, remove duplication, and align with updated regulatory frameworks and service delivery models.
- All existing and proposed fees and charges have been assessed in accordance with Council’s *Revenue Policy*.
- Fees set by statute, such as Schedule 4 of the Environmental Planning and Assessment Regulation, will be updated as they are published and reported to Council when the final Fees and Charges Schedule 2026–2027 is submitted for adoption.

**RECOMMENDATION:**

**1. THAT** Council endorse the Draft Fees and Charges Schedule 2026–2027 to be placed on public exhibition for 28 days.

**2. THAT** Council note that a further report will be prepared for Council’s consideration at the submissions closing period to facilitate adoption of the Fees and Charges Schedule 2026–2027 by 30 June 2026.

## Background

The Draft Fees and Charges Schedule 2026–2027 has been prepared in the context of North Sydney Council’s ongoing commitment to financial sustainability and service delivery. Fees and charges currently account for approximately 20% of Council’s total revenue and 23% of own-source income.

With the *Long-Term Financial Plan 2026–2036* highlighting structural operating deficits, underfunded infrastructure renewal, and low financial resilience, Council has taken proactive steps to strengthen its financial position.

Following IPART’s decision not to approve Council’s previous application for a Special Rate Variation (SV), Council has taken on board the feedback provided. IPART’s determination emphasised the need for Council to explore alternative revenue sources to reduce reliance on rating increases.

In response, Council undertook a detailed review of its activities to improve cost recovery, update outdated charges, identify new and expanded revenue opportunities, and recover costs previously absorbed within general operations. This work helps to ensure that users of specific services, and those undertaking activities requiring additional Council oversight, contribute appropriately to the cost-of-service delivery.

An additional \$1.085 million in Fees and Charges income has been included in the 2026/27 budget arising from these initiatives. This is equivalent to approximately 2% of rate revenue under the rate peg and has reduced the level of Special Variation required.

With the exception of new fees and charges for commercial and group use of public open space, this schedule gives effect to that work, with 54 new fees proposed and 42 outdated or redundant charges recommended for removal. These changes are intended to ensure that fees are set at appropriate levels and better aligned with market benchmarks and the actual cost of service delivery.

## Report

The Draft Fees and Charges Schedule 2026–2027 was formulated around a general increase of 3.7% over the previous year’s adopted schedule. This index is in line with the change in the All-Groups CPI Sydney index, from December 2024 to December 2025, and comparable market rates.

All existing and proposed fees and charges have been assessed according to the nature of the services being provided. The following principles have been considered in the analysis of the proposed fees and charges:

1. Full cost recovery: the fee charged aims to recover all the direct and indirect costs associated with providing the service.
2. Partial cost recovery: the fee charged aims to only partially recover the full cost involved in providing a service. Situations where partial cost recovery may apply include:

- a. where benefits from the provision of the service accrue to the community as a whole as well as individual users; and/or
  - b. a short-term approach to stimulate demand for a service where charging at full cost recovery may result in service evasion.
3. Market competitive: the fee charged is based on market competition. Comparatives are made with businesses offering the same or similar services.
  4. Bonds and deposits: refundable payments that may be requested as a security for making good any damage caused to Council property and/or completing any works required in connection with an approval.
  5. Regulated and prescribed: fees that are prescribed by State or Federal Government legislation. In the event of legislation introducing a new or amended statutory/regulatory fee subsequent to adoption or printing of this document, the Council may apply these new charges without further notice.
  6. Conditions of grant funding: fees that are subject to eligible State and Federal grants whereby the Council is bound by their contractual terms and conditions, including applicable limits to chargeable fees.

These principles are included in Council's annual revenue policies.

Three Schedules are attached to this report:

- a complete Draft Fees and Charges Schedule 2026–2027 (Attachment 3);
- a register of new fees (Attachment 2) and
- a register of discontinued fees (Attachment 1).

Fees set by statute, such as Schedule 4 of the Environmental Planning and Assessment Regulation, will be updated as they are published, and reported to Council when the final Schedule of Fees is submitted for adoption.

It is important to note that on 31 March 2026 the RBA confirmed a decision to ban surcharges on debit and credit card transactions. This change forms part of broader payment system reforms aimed at simplifying card payments and improving transparency for customers. The changes are scheduled to take effect from 1 October 2026. Further details will be released by the RBA over time, including guidance on how the reforms may impact merchants and payment service providers. This change might impact Council's fees and charges prior to adoption in June 2026.

The Draft Fees and Charges Schedule 2026–2027 does not include fees for the North Sydney Olympic Pool nor fees for the new *Commercial and Group Use of Open Space Policy*. These will be reported to Council separately and will be added to the Schedule once adopted by Council.

The key areas with the most significant changes to fees and charges, including structural changes and increases in 2026-2027, are outlined below.

## Public Events fees

A revised public event fee structure is proposed for the next financial year, introducing a new permit fee framework across a range of event types and impact levels. The proposed fees will apply to complex, high-impact, and detailed events held in Council parks and public spaces, including charges for bump-in and bump-out activities, refundable bonds, and event assessments.

Following feedback from the community regarding the condition of turf after events, Council's Public Presentation team has introduced a new fee to recover turf repair costs from event hirers following the conclusion of events, ensuring parks are restored to their original condition. Council currently incurs approximately \$17,000 from operational funds to repair turf following each event.

The new fees are intended to recover the full cost associated with event assessment, site management, and post-event reinstatement, while ensuring that fees are proportionate to event scale and impact of each event. Differential pricing has been applied to support not-for-profit events (50% discount) and lower-impact activities, whereas higher-impact and complex events attract higher fees, reflecting the increased resource requirements and associated risk.

## Pre Development Application Consultation

A fee restructure is proposed for Pre-Development Application (Pre-DA) consultation fee. The new structure represents a simplification of Council's existing approach. The current structure is based on anticipated Council attendance at meetings, whereas the proposed structure fee is based on the estimated cost of works, with tiered categories ranging from up to \$500,000 to those exceeding \$20,000,000. This approach more accurately reflects the scale and complexity of a proposal.

The revised approach also provides Council with greater flexibility to determine the appropriate internal resources required for each consultation, rather than prescribing attendance through the fee structure and allowing applicants to select participants. This simplified framework improves consistency, transparency, and alignment between fees and the level of assessment required.

## Parking Station Fees

Parking station fees have generally not been indexed for 2026–2027. Demand for parking, and consequently parking income, has continued to decline following the completion of the Metro station. Nicholson Street carpark has experienced a material reduction in revenue performance, primarily due to structural changes in occupancy patterns.

In 2024–2025, the leasing of 54 parking spaces previously allocated to Mater Hospital were cancelled, resulting in an ongoing annual revenue reduction of approximately \$230,040. This loss of leased income continues to negatively impact the financial position of the parking

facility and has been taken into account in the preparation of the Draft Fees and Charges Schedule 2026–2027 projections.

The reduction in income also reflects broader changes in travel behaviour, including the cessation of demand for permanent parking spaces that were previously required by construction workers during the Metro project.

#### Car Parking Permits

A moderate increase in residential parking permit fees is proposed for the next financial year, with increases ranging from 15% to 20%. Under the proposal, the annual fee for the first residential parking permit would increase from \$88.00 to \$101.20, and the second residential parking permit would increase from \$181.00 to \$218.00. This increase is in line with the Productivity Plan and will generate an additional \$67K of revenue, incorporated in the Draft budget.

The proposed pricing structure is intended to more appropriately reflect the value of public space and to support a shift towards sustainable transport, in line with Council’s *Environment Strategy* and *Integrated Transport Strategy*. Additional revenue would be directed towards initiatives that support healthier and more sustainable travel outcomes, including the delivery of green corridors.

#### The Coal Loader fees

The Coal Loader’s Tunnel One and Platform are unique, adaptable, and iconic Sydney venues with large capacity and high demand. The proposed fee increases are informed by benchmarking against comparable venues across Sydney and address current pricing that is below market, particularly for commercial hires such as production companies. Tunnel One is currently underpriced relative to its capacity and versatility, while the Platform offers premium value through uninterrupted harbour views and a strong connection to the natural environment. The revised fees seek to better reflect the market value of these assets and support appropriate cost recovery. The proposed fees increase range from approximately 32% to 165%, with higher increases applying to larger events and peak usage periods.

Concessional rates will be applied to community hire of the Platform, Tunnel One, the Mess Hall, and Genia McCaffery rooms at The Coal Loader.

#### Other Material Changes (other than mentioned above)

The table below represents the changes as per statutory requirements.

Category	Fee and Charge	Pg No:	% Increase	\$ Increase

Subdivision Certification	Administration fee - Termination of strata scheme	1.64	87.14%	\$ 244.00

A number of fee categories have been restructured in response to the introduction of new fee frameworks by Local and State Government. The affected areas include:

- Food Shops – Food Act
- Filming in public area
- Development applications fees

Other new and discontinued fees are to minor items and are not expected to materially affect income

### New Fees Introduced Summary

Category	Fee and Charge	Reason for introduction
Parks and Reserve	Hourly Fee for Inspection (minimum 1 hour charge)	To recover turf repair costs from event hirers following the conclusion of events, ensuring parks
Parks and Reserve	Infrastructure Bond	

<b>Category</b>	<b>Fee and Charge</b>	<b>Reason for introduction</b>
Parks and Reserve	Turf Replacement - includes stripping, cultivation, supply and lay turf and 6 weeks establishment - Kikuyu (per m2)	are restored to their original condition following events
Parks and Reserve	Turf Replacement - includes stripping, cultivation, supply and lay turf, and 6 weeks establishment - Couch (per m2)	
Parks and Reserve	Turf Renovation - includes aeration, decompaction, and topdressing Couch (per m2)	
Parks and Reserve	Garden Bed Rectification - includes clearing of damaged area, tidy up existing planting, levelling of area with new soil, supply and install new mulch and initial watering (per m2, supply and installation of new plants charged separately)	
Parks and Reserve	Hourly Fee for Irrigation Repairs (minimum 4-hour charge, materials used charged separately)	
Tree Application	Request for Tree Removal or Pruning	Comparable to other Councils' Fees and Charges
North Sydney Oval	External Food Vendor Fee	Comparable to other Councils' Fees and Charges
Footpath Permit	Daily Occupation fee footpath closure (pedestrians detoured or forced to cross the street)	Replace old fees
Footpath Permit	Daily Occupation fee footpath partial closure (safe direct access maintained)	Replace old fees
Public Event	High Impact Event Permit Fee (Not-for-Profit)	Current fee was set incorrectly and does not reflect actual level of assessment and impact associated with a medium impact event. The revised fee correctly aligns the medium impact event at 50% of the currently established high impact (complex) event fee ensuring consistency, fairness, and cost recovery.

Food Inspection Fee	Re-Inspection Fee – Bar Only	
Fire Safety	Assessment of proposed Performance Solution	

### Consultation Requirements

Community engagement will be undertaken in accordance with Council’s Community Engagement Strategy.

### Financial/Resource Implications

User charges and fees are an important source of revenue for Council. In 2024-2025 financial year user fees were \$30.734 million, accounting for 20% of all revenue and 26% of own-source revenue.

In addition to CPI adjustments, selected fees have been increased above CPI where required to address historical under-recovery, reflect market benchmarks, or respond to changes in service demand and delivery costs. These targeted increases are expected to improve overall cost recovery and reduce reliance on rate-based income to subsidise specific services.

The proposed changes are not expected to have a material adverse impact on Council's overall financial position. Instead, they will support:

- improved cost recovery across key service areas, particularly where fees have not kept pace with actual delivery costs;
- more sustainable funding of services and assets, ensuring that user charges contribute appropriately to ongoing operational and maintenance requirements; and
- reduced cross-subsidisation, promoting greater equity between users of services and the broader ratepayer base.

Where appropriate, concessional pricing and subsidies have been retained to ensure continued access for community groups and individuals with limited capacity to pay. This approach balances financial sustainability with Council's broader social and community objectives.

From a resource perspective, the revised fee structures, particularly in areas such as public events and development-related services, provide greater flexibility for Council to allocate internal resources based on service demand and complexity, rather than being constrained by legacy fee models.

Overall, the proposed Revenue Policy and the Draft Fees and Charges Schedule 2026-27 position Council to better respond to ongoing cost pressures, maintain service levels, and ensure a more transparent and equitable approach to revenue generation.

### **Resource Implication Details**

As per the *Revenue Policy*, the following principals are applied when formulating user fees:

- a) Council will endeavour to apply all revenue policies on an equitable basis;
- b) the "user pays" principle will, in general, be the basis for the full recovery of costs;
- c) fees and charges will take into account the movements in the Consumer Price Index (Sydney All Groups);
- d) income earned from Council's assets will be maximised, based on industry market rates;
- e) as a minimum, Council will seek to recover the administrative costs in performing its statutory duties; and
- f) consideration will be given to those groups and/or members of the community, who are disadvantaged and may not otherwise be able to access the service. Generally, this will be reflected by discounting the fee or charge.

The recovery of charges and fees under this approach are necessary to maintain current levels of services and assets. The proposed changes will not have a material impact on Council's financial position.

## **Legislation**

In accordance with sections 405 and 608(1) of the Local Government Act 1993, a schedule of fees and charges must be prepared annually as a provision within Council's annual *Statement of Revenue Policy*.

**DEVELOPMENT APPLICATIONS****Fee Unit Amount**

The Fee Unit amount is determined under the *Environmental Planning and Assessment Regulation 2021* (the Regulation). The Regulation provides for an annual increase of the Fee Unit in accordance with movements in the Consumer Price Index (CPI) for the Quarter ending 31 March in each year from 2023.

(Refer to the Environmental Planning and Assessment Regulation 2021 Schedule 4 for any other Statutory fees and charges not listed in this schedule).

Note: In the event of any inconsistency between the fee shown in this Policy and the Regulation, the fee in the Regulation prevails.

The Fee Unit Amount for 2025 Financial Year is \$111.32

## DEVELOPMENT APPLICATIONS

### Fee Unit Amount

The Fee Unit amount is determined under the *Environmental Planning and Assessment Regulation 2021* (the Regulation). The Regulation provides for an annual increase of the Fee Unit in accordance with movements in the Consumer Price Index (CPI) for the Quarter ending 31 March in each year from 2023.

(Refer to the Environmental Planning and Assessment Regulation 2021 Schedule 4 for any other Statutory fees and charges not listed in this schedule).

Note: In the event of any inconsistency between the fee shown in this Policy and the Regulation, the fee in the Regulation prevails.

The Fee Unit Amount for 2025 Financial Year is \$111.32

### POST APPROVAL DEVELOPMENT FEE

Consultancy Fee- Post Approval Input by Council for SSD Applications	25% of scheduled DA fee based on cost of works. This fee is in addition to any other scheduled fee and covers Councils involvement in technical matters which would otherwise be covered by the Development application fee if the matter was considered by Council.
