Construction update for residents along Military Road, Neutral Bay

In planning for Tomorrow’s Sydney, we are delivering public transport improvements for the Northern Beaches and Lower North Shore, including an integrated program of service and infrastructure upgrades.

This notification is to provide further information for work along Military Road between Ben Boyd Road, Neutral Bay and Hampden Avenue, Cremorne from Friday 22 December 2017 to Monday 8 January 2018.

Outline of work

Over this period, work will take place to upgrade the road pavement and install a new lane management system (tidal flow). The current lane arrangements will temporarily change to accommodate these works. Work during this time will include:

- investigation and relocation of underground services
- extensive road works including pavement and kerb installation
- relocation of traffic signage and installation of new in-pavement lighting

Timing of work

Work will take place during the day and night between 7pm Friday 22 December 2017 and 5am Monday 8 January 2018.

No work will take place between:

- 6am Sunday 24 December and 6pm Tuesday 26 December 2017
- 6am Sunday 31 December and 6pm Tuesday 2 January 2018.

Night work is required for the safety of workers, pedestrians and road users and to minimise traffic impacts.

What to expect

These works will include noisy activities and noise mitigation measures will be in place to minimise disruption for nearby residents. These measures are part of the project’s Construction Noise and Vibration Guidelines (CNVG). Some ways in which the project team try to reduce the impacts of the work include:

- The use of barriers and sound blankets to help reduce noise impacts
- the use of non-tonal reversing alarms (also known as squawkers) instead of beepers on vehicles
- carrying out noisier activities such as jackhammering and saw cutting earlier in the shift, where possible
- directing the lights away from residents
- talking to directly impacted residents before the work starts to let them know what to expect.

Let us know

We appreciate that this time of year may be a sensitive time for residents and would like to speak to you regarding any questions or concerns you may have about the work. Our community team will work with residents to discuss ways in which we can minimise impacts.

Please contact us as soon as possible to provide contact details so we can provide you with the most up to date information as work progresses.

WHAT IS A TIDAL FLOW LANE?

This is a ‘reversible’ lane in which traffic may travel in either direction depending on the time of day or traffic conditions. It is designed to improve traffic flow during peak periods by making an extra lane available for vehicles travelling along the busier side of the road. Typically, a combination of movable medians, candy bar bollards, and in-pavement lights are used to separate the traffic travelling in opposite directions and to show the live lane configurations.
**Temporary parking changes**

To facilitate traffic flow, parking will be temporarily removed along Military Road between Hampden Avenue, Cremorne and Ben Boyd Road, Neutral Bay between Friday 22 December 2017 and Monday 8 January 2018.

Current parking arrangements will be available during the following times:
- 7am Sunday 24 December until 7pm Tuesday 26 December and
- 7am Sunday 31 December until 7pm Tuesday 2 January 2018

Please see map on following page for the location of parking changes. Signage will be in place where temporary changes to parking are made.

**Pedestrian and traffic changes**

Pedestrian access will be maintained and detours will be in place to facilitate movement around the work area. Temporary fencing, traffic control and signs will be in place for the safety of motorists and pedestrians. Please be careful around sites and follow the direction of traffic controls and temporary signs.

**Bus stop changes**

Two bus stops located on Military Road. The Westbound stop at Wycombe Rd and the Northbound stop near Young St, Neutral Bay will be temporarily relocated from 10pm on Friday 22 December 2017 to 5am Monday 8 January 2018.

**Westbound bus stops**
The Westbound bus stops at Wycombe Road will be relocated further west, close to Ben Boyd Road approximately 260 metres from its current location.

**Northbound bus stop**
The Northbound bus stop near Young Street will be relocated further west, close to Ben Boyd Road approximately 120 metres from its current location.

The bus stop relocations are shown on the map attached. Signage will be in place to advise of the temporary changes to bus stop locations. All scheduled services will continue to operate during this period.
