

Balls Head Reserve - Species List

Common name	Conservation Status	Last date observed	Occurrence	Habitat
Amphibians				
Common Eastern Froglet	Locally common	2010	yb	v
Striped Marsh Frog	Locally common	2009	yb	wu
Reptiles				
Lesueur's Velvet Gecko	Locally significant	2001	yb	eh
Southern Leaf-tailed Gecko	Locally common	2009	yb	ehu
Fence Skink	Locally common	2010	yb	eu
Eastern Water Skink	Locally significant	2009	yb	w
Delicate Garden Skink	Locally common	2010	yb	ehu
Common Garden Skink	Locally common	2010	yb	eu
Eastern Blue-tongued Skink	Locally significant	2009	yb	eh
Birds				
Australian Brush-turkey	Regionally threatened	2009	yb	re
Chestnut Teal	Locally significant	2007	yb	w
Pacific Black Duck	Locally significant	2009	yb	w
Australian Wood Duck	Locally significant	2008	in	wg
Crested Pigeon	Locally common	2010	yb	gu
Tawny Frogmouth	Locally common	2009	yb	eu
White-throated Needletail	Migratory species	2009	sn	a
Little Penguin	Regionally threatened	2008	wn	mwc
Australasian Darter	Locally significant	2008	yn	w
Little Pied Cormorant	Locally significant	2010	yn	wc
Great Cormorant	Locally significant	2009	yn	wc
Little Black Cormorant	Locally significant	2010	yn	wc
Pied Cormorant	Locally significant	2010	yn	wc
Australian Pelican	Locally significant	2010	in	w
Striated Heron	Locally significant	2010	yb	w
White-faced Heron	Locally significant	2010	yb	wc
Australian White Ibis	Locally common	2010	yn	gwu
Black-shouldered Kite	Locally significant	2007	in	g
White-bellied Sea-Eagle	Migratory species	2008	in	wc
Nankeen Kestrel	Locally significant	2008	in	gc
Masked Lapwing	Locally common	2010	yb	gwu
Silver Gull	Locally common	2010	yn	wcu
Franklin's Gull	Locally common	1981	rn	wc
Crested Tern	Locally significant	2010	in	wc
Sulphur-crested Cockatoo	Locally common	2010	yb	egu
Yellow-tailed Black-Cockatoo	Locally significant	2009	wn	eh
Galah	Locally common	2010	yb	gu
Australian King-Parrot	Locally common	2010	yb	eu
Crimson Rosella	Locally common	2009	yb	ehu
Eastern Rosella	Locally common	2010	yb	egu
Rainbow Lorikeet	Locally common	2010	yb	ehu
Fan-tailed Cuckoo	Locally significant	2002	ib	e
Eastern Koel	Locally common	2009	sb	eu
Channel-billed Cuckoo	Locally common	2009	sb	eu
Laughing Kookaburra	Locally common	2010	yb	eu
Dollarbird	Locally significant	2007	sb	a
Superb Fairy-wren	Locally significant	2010	yb	v
White-throated Gerygone	Regionally threatened	1994	sn	e
White-browed Scrubwren	Locally significant	2010	yb	eh
Spotted Pardalote	Locally significant	2010	yb	e
Eastern Spinebill	Locally significant	2008	yb	eh

Common name	Conservation Status	Last date observed	Occurrence	Habitat
Birds				
Red Wattlebird	Locally common	2010	yb	ehu
Little Wattlebird	Locally significant	2009	in	eh
Yellow-faced Honeyeater	Locally significant	2007	wn	eh
White-plumed Honeyeater	Locally common	2001	rb	eu
Noisy Miner	Locally common	2010	yb	eu
White-naped Honeyeater	Locally common	1994	rn	e
New Holland Honeyeater	Locally common	2002	rn	eh
Eastern Whipbird	Locally significant	2010	yb	eh
Black-faced Cuckoo-shrike	Locally common	2010	yb	egu
Australasian Figbird	Locally common	2009	yb	ru
Australian Magpie	Locally common	2010	yb	gu
Grey Butcherbird	Locally common	2010	yb	eu
Pied Currawong	Locally common	2010	yb	eu
Spangled Drongo	Locally significant	2009	wn	re
Grey Fantail	Locally significant	2003	in	e
Willie Wagtail	Locally common	2010	yb	gu
Rufous Fantail	Migratory species	2009	sn	re
Australian Raven	Locally common	2010	yb	v
Magpie-lark	Locally common	2010	yb	gwu
Leaden Flycatcher	Locally Extinct	1970	(sb)	e
Spectacled Monarch	Migratory species	1970	rn	re
Eastern Yellow Robin	Locally significant	2010	yb	e
Rose Robin	Locally significant	2003	wn	re
Silvereye	Locally common	2010	yb	ehu
Welcome Swallow	Locally common	2010	yb	au
Fairy Martin	Regionally threatened	2007	rn	a
Tree Martin	Locally significant	2009	sn	a
Mammals				
Short-beaked Echidna	Locally significant	2003	yb	eh
Brown Antechinus	Locally significant	2006	yb	eh
Common Brushtail Possum	Locally common	2010	yb	eu
Common Ringtail Possum	Locally common	2010	yb	ehu
Grey-headed Flying-fox	Nationally threatened species	2010	yn	eu
Eastern Bent-wing Bat	Threatened in NSW	2008	yn	a

Occurrence:

y = likely to be present all year, s = spring-summer visitor, w = autumn-winter visitor,

i = irregular visitor, r = rare visitor

b = known or likely to breed in North Sydney, e = escapee from captivity,

n = unlikely to breed now in North Sydney, () = former occurrence of species not recorded for many years

Habitat: r = rainforest, e = eucalypt forest/woodland, h = heath/scrub, g = grassland/open vegetation,

u = urban, w = wetlands/estuaries/watercourses, c = coast, m = marine, a = aerial, v = various
