

Cremorne Reserve - Species List

Common name	Conservation Status	Last date observed	Occurrence	Habitat
Amphibians				
Common Eastern Froglet	Locally common	2010	yb	v
Reptiles				
Eastern Water Dragon	Locally significant	2010	yb	w
Southern Leaf-tailed Gecko	Locally common	2009	yb	ehu
Burton's Legless Lizard	Locally significant	2009	yb	v
Fence Skink	Locally common	2010	yb	eu
Eastern Water Skink	Locally significant	2009	yb	w
Greater Bar-sided Skink	Locally significant	1992	yb	e
Delicate Garden Skink	Locally common	2010	yb	ehu
Three-toed Skink	Locally significant	2009	yb	e
Eastern Blue-tongued Skink	Locally significant	2009	yb	eh
Golden-crowned Snake	Locally significant	2009	yb	eh
Birds				
Australian Brush-turkey	Regionally threatened	2009	yb	re
Stubble Quail	Regionally threatened	2008	rn	g
Pacific Black Duck	Locally significant	2009	yb	w
Australian Wood Duck	Locally significant	2008	in	wg
White-tailed Tropicbird	Migratory species	2009	rn	m
Crested Pigeon	Locally common	2010	yb	gu
Tawny Frogmouth	Locally common	2009	yb	eu
White-throated Needletail	Migratory species	2009	sn	a
Wedge-tailed Shearwater	Migratory species	2009	rn	m
Little Penguin	Regionally threatened	2008	wn	mwc
Australasian Gannet	Locally common	2009	rn	m
Australasian Darter	Locally significant	2008	yn	w
Little Pied Cormorant	Locally significant	2010	yn	wc
Great Cormorant	Locally significant	2009	yn	wc
Little Black Cormorant	Locally significant	2010	yn	wc
Pied Cormorant	Locally significant	2010	yn	wc
Australian Pelican	Locally significant	2010	in	w
White-necked Heron	Regionally threatened	2009	rn	w
White-faced Heron	Locally significant	2010	yb	wc
Nankeen Night-Heron	Locally common	2006	rn	w
Australian White Ibis	Locally common	2010	yn	gwu
Brown Goshawk	Locally significant	2010	in	e
White-bellied Sea-Eagle	Migratory species	2008	in	wc
Whistling Kite	Locally common	2009	rn	wc
Brown Falcon	Locally common	2002	rn	gh
Nankeen Kestrel	Locally significant	2008	in	gc
Peregrine Falcon	Locally common	2008	yb	v
Dusky Moorhen	Locally common	2001	rn	w
Masked Lapwing	Locally common	2010	yb	gwu
Silver Gull	Locally common	2010	yn	wcu
Franklin's Gull	Locally common	1981	rn	wc
Common Tern	Migratory species	2002	sn	wc
Crested Tern	Locally significant	2010	in	wc
Sulphur-crested Cockatoo	Locally common	2010	yb	egu
Yellow-tailed Black-Cockatoo	Locally significant	2009	wn	eh
Galah	Locally common	2010	yb	gu
Australian King-Parrot	Locally common	2010	yb	eu
Crimson Rosella	Locally common	2009	yb	ehu
Eastern Rosella	Locally common	2010	yb	egu

Common name	Conservation Status	Last date observed	Occurrence	Habitat
Birds				
Rainbow Lorikeet	Locally common	2010	yb	ehu
Shining Bronze-Cuckoo	Locally common	2005	rn	e
Eastern Koel	Locally common	2009	sb	eu
Channel-billed Cuckoo	Locally common	2009	sb	eu
Powerful Owl	Threatened in NSW	2010	yb	e
Laughing Kookaburra	Locally common	2010	yb	eu
Sacred Kingfisher	Locally significant	2010	sb	ew
Superb Fairy-wren	Locally significant	2010	yb	v
Variiegated Fairy-wren	Locally significant	2008	yb	eh
White-browed Scrubwren	Locally significant	2010	yb	eh
Red Wattlebird	Locally common	2010	yb	ehu
Noisy Miner	Locally common	2010	yb	eu
New Holland Honeyeater	Locally common	2002	rn	eh
Eastern Whipbird	Locally significant	2010	yb	eh
Black-faced Cuckoo-shrike	Locally common	2010	yb	egu
Australasian Figbird	Locally common	2009	yb	ru
Australian Magpie	Locally common	2010	yb	gu
Grey Butcherbird	Locally common	2010	yb	eu
Pied Currawong	Locally common	2010	yb	eu
Australian Raven	Locally common	2010	yb	v
Magpie-lark	Locally common	2010	yb	gwu
Black-faced Monarch	Migratory species	2006	sn	re
Silvereye	Locally common	2010	yb	ehu
Welcome Swallow	Locally common	2010	yb	au
Mammals				
Common Brushtail Possum	Locally common	2010	yb	eu
Common Ringtail Possum	Locally common	2010	yb	ehu
Grey-headed Flying-fox	Nationally threatened species	2010	yn	eu
Eastern Bent-wing Bat	Threatened in NSW	2008	yn	a

Occurrence:

y = likely to be present all year, s = spring-summer visitor, w = autumn-winter visitor,
i = irregular visitor, r = rare visitor

b = known or likely to breed in North Sydney, e = escapee from captivity,

n = unlikely to breed now in North Sydney, () = former occurrence of species not recorded for many years

Habitat: r = rainforest, e = eucalypt forest/woodland, h = heath/scrub, g = grassland/open vegetation,

u = urban, w = wetlands/estuaries/watercourses, c = coast, m = marine, a = aerial, v = various
