

Wonga Road Reserve - Species List

Common name	Conservation Status	Last date observed	Occurrence	Habitat
Amphibians				
Common Eastern Froglet	Locally common	2010	yb	v
Reptiles				
Eastern Water Dragon	Locally significant	2010	yb	w
Delicate Garden Skink	Locally common	2010	yb	ehu
Common Garden Skink	Locally common	2010	yb	eu
Birds				
Pacific Black Duck	Locally significant	2009	yb	w
Crested Pigeon	Locally common	2010	yb	gu
Tawny Frogmouth	Locally common	2009	yb	eu
Little Pied Cormorant	Locally significant	2010	yn	wc
Little Black Cormorant	Locally significant	2010	yn	wc
Striated Heron	Locally significant	2010	yb	w
Little Egret	Locally common	1999	rn	w
White-faced Heron	Locally significant	2010	yb	wc
Masked Lapwing	Locally common	2010	yb	gwu
Silver Gull	Locally common	2010	yn	wcu
Sulphur-crested Cockatoo	Locally common	2010	yb	egu
Galah	Locally common	2010	yb	gu
Crimson Rosella	Locally common	2009	yb	ehu
Eastern Rosella	Locally common	2010	yb	egu
Rainbow Lorikeet	Locally common	2010	yb	ehu
Laughing Kookaburra	Locally common	2010	yb	eu
Superb Fairy-wren	Locally significant	2010	yb	v
White-browed Scrubwren	Locally significant	2010	yb	eh
Red Wattlebird	Locally common	2010	yb	ehu
Noisy Miner	Locally common	2010	yb	eu
Black-faced Cuckoo-shrike	Locally common	2010	yb	egu
Australian Magpie	Locally common	2010	yb	gu
Grey Butcherbird	Locally common	2010	yb	eu
Pied Currawong	Locally common	2010	yb	eu
Willie Wagtail	Locally common	2010	yb	gu
Australian Raven	Locally common	2010	yb	v
Magpie-lark	Locally common	2010	yb	gwu
Silvereye	Locally common	2010	yb	ehu
Welcome Swallow	Locally common	2010	yb	au
Mammals				
Common Brushtail Possum	Locally common	2010	yb	eu
Common Ringtail Possum	Locally common	2010	yb	ehu
Grey-headed Flying-fox	Nationally threatened species	2010	yn	eu
Eastern Bent-wing Bat	Threatened in NSW	2008	yn	a

Occurrence:

y = likely to be present all year, s = spring-summer visitor, w = autumn-winter visitor,

i = irregular visitor, r = rare visitor

b = known or likely to breed in North Sydney, e = escapee from captivity,

n = unlikely to breed now in North Sydney, () = former occurrence of species not recorded for many years

Habitat: r = rainforest, e = eucalypt forest/woodland, h = heath/scrub, g = grassland/open vegetation,

u = urban, w = wetlands/estuaries/watercourses, c = coast, m = marine, a = aerial, v = various
