PETITION

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.

The Petition of the undersigned residents, business owners and visitors of Neutral Bay, Cremorne, Mosman, Seaforth, Manly Vale, Mona Vale and surrounding districts brings to the attention of the House our request to <u>halt the B-Line Bus Project</u> which threatens to resume private land in Cremorne, Mosman and Neutral Bay, as well as negatively impacting on our local traffic flows, streetscapes, business communities and pedestrian amenity. The B-line bus project will not make any major impact on traffic congestion on Pittwater, Spit or Military Roads. At an estimated cost of $600+ million and escalating, **B-line is a flawed band-aid solution which is a scandalous waste of taxpayers' money. A more permanent, innovative solution is needed to resolve traffic issues to/from the Northern Beaches**. The undersigned petitioners therefore ask the Legislative Assembly to request a comprehensive parliamentary investigation be made to examine the costs, rationale and decision-making associated with the B-line Bus Project to date.
